

FROM ANT TO ZEBRA

COLOUR GUIDE

The finished colour for all 26 animals

A companion to the colouring book

Debayan Sen

ABOUT THIS GUIDE

This free guide shows how each animal in From Ant to Zebra was coloured. Keep it on a phone or tablet beside the book, or print the pages you want.

There is no right answer. If your child wants a purple elephant, that is a better outcome than a grey one.

This guide is given free to readers of From Ant to Zebra. You may print it and share it with family, friends and your own classroom. You may not resell it, bundle it with a paid product, or redistribute it commercially.

The illustrations were created with the assistance of artificial intelligence tools and reviewed by the author.

First edition, 2026

Published independently

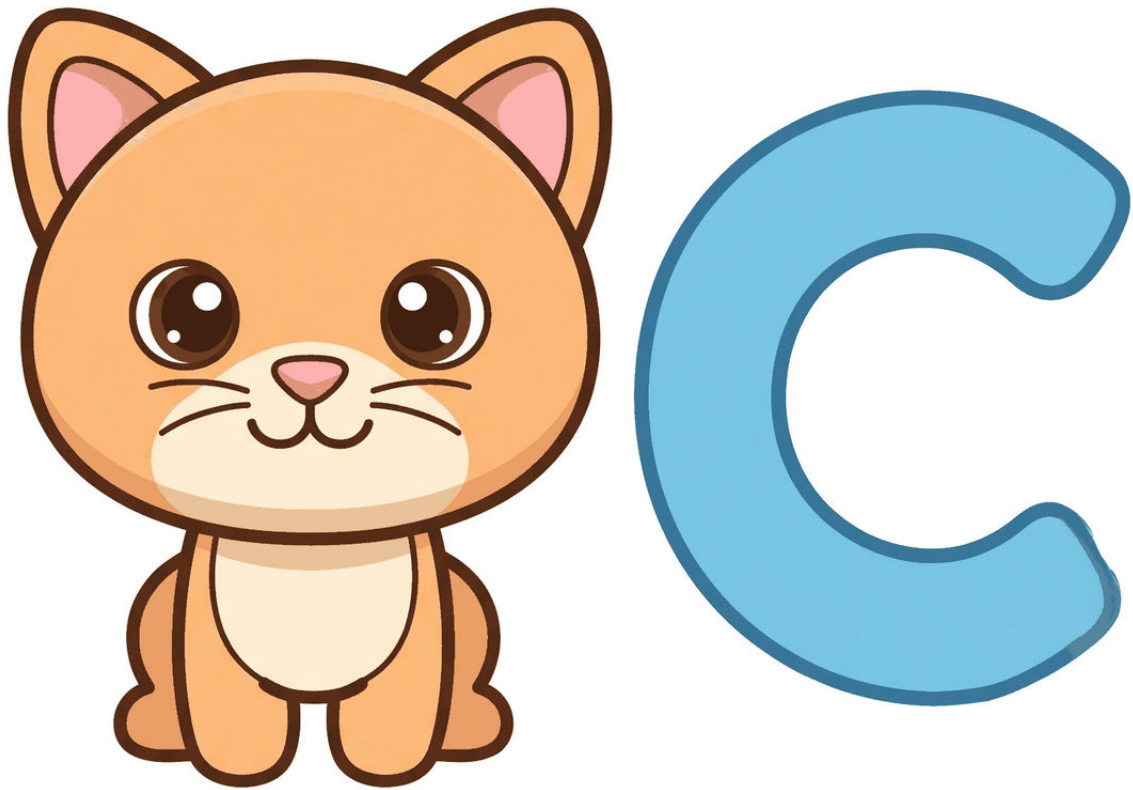

A IS FOR ANT

Ants are tiny but very strong. One ant can carry food much heavier than itself.

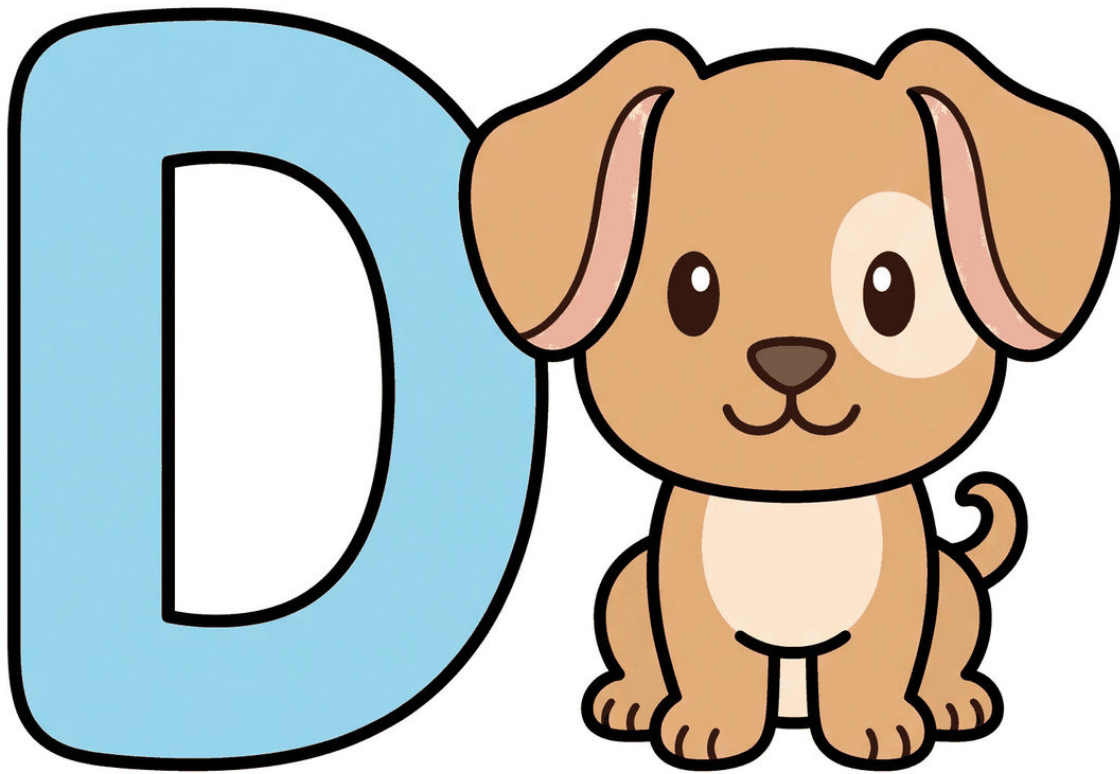

B IS FOR BUFFALO

Buffaloes live together in big herds. They love to cool down in muddy water.

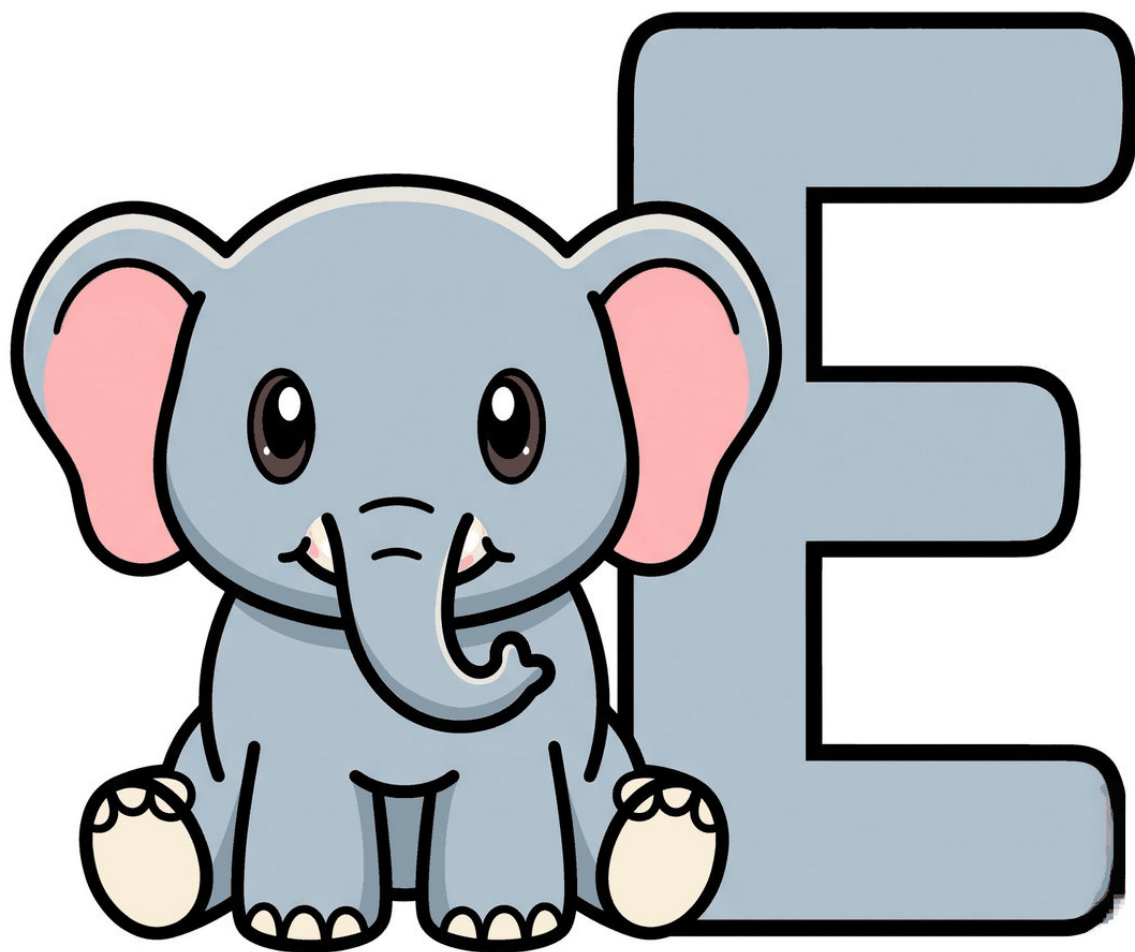

C IS FOR CAT

Cats sleep for most of the day. Their whiskers help them feel their way in the dark.

D IS FOR DOG

Dogs can smell far better than people can. They wag their tails when they are happy.

E IS FOR ELEPHANT

Elephants are the biggest animals on land. They use their long trunks to drink and wash.

F

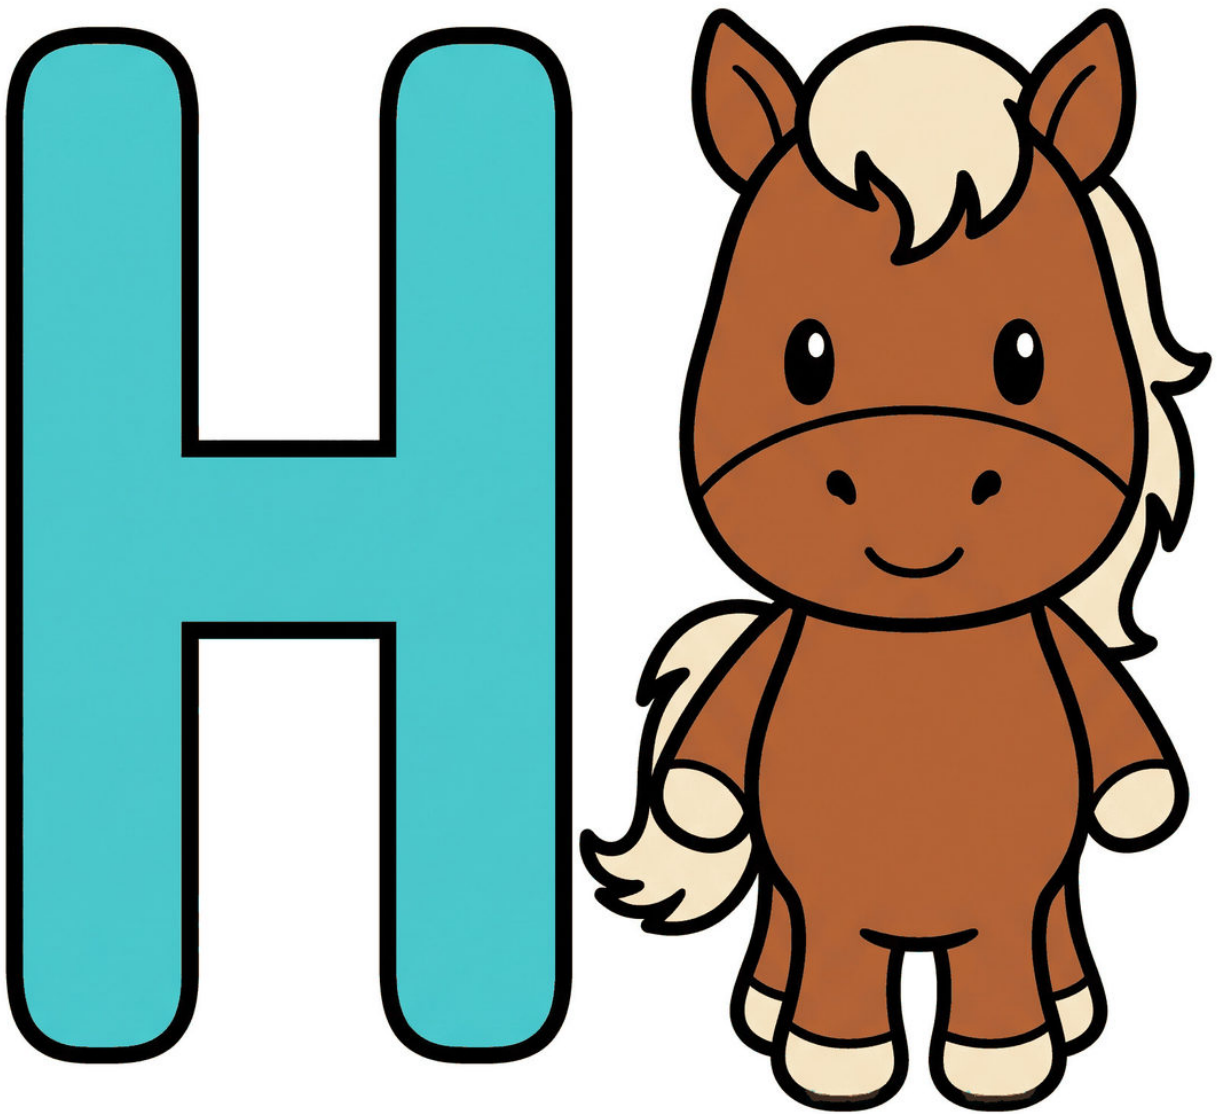

F IS FOR FROG

Frogs begin life as tiny tadpoles in the water. Their strong legs let them jump very far.

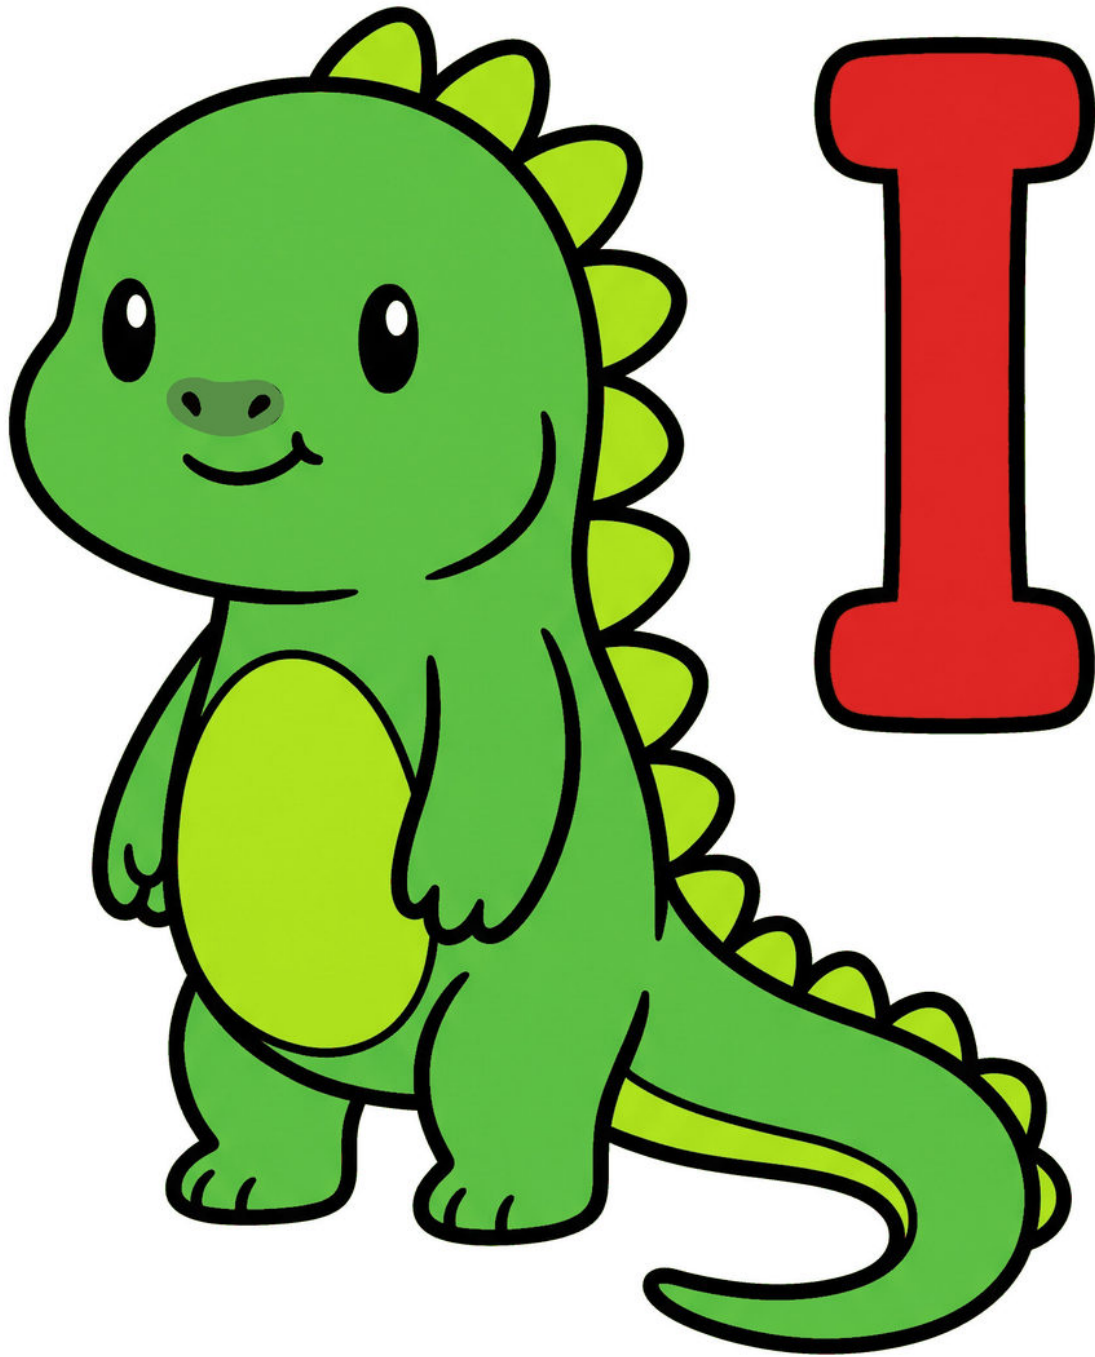

G IS FOR GIRAFFE

Giraffes are the tallest animals in the world. Their long necks reach leaves high in the trees.

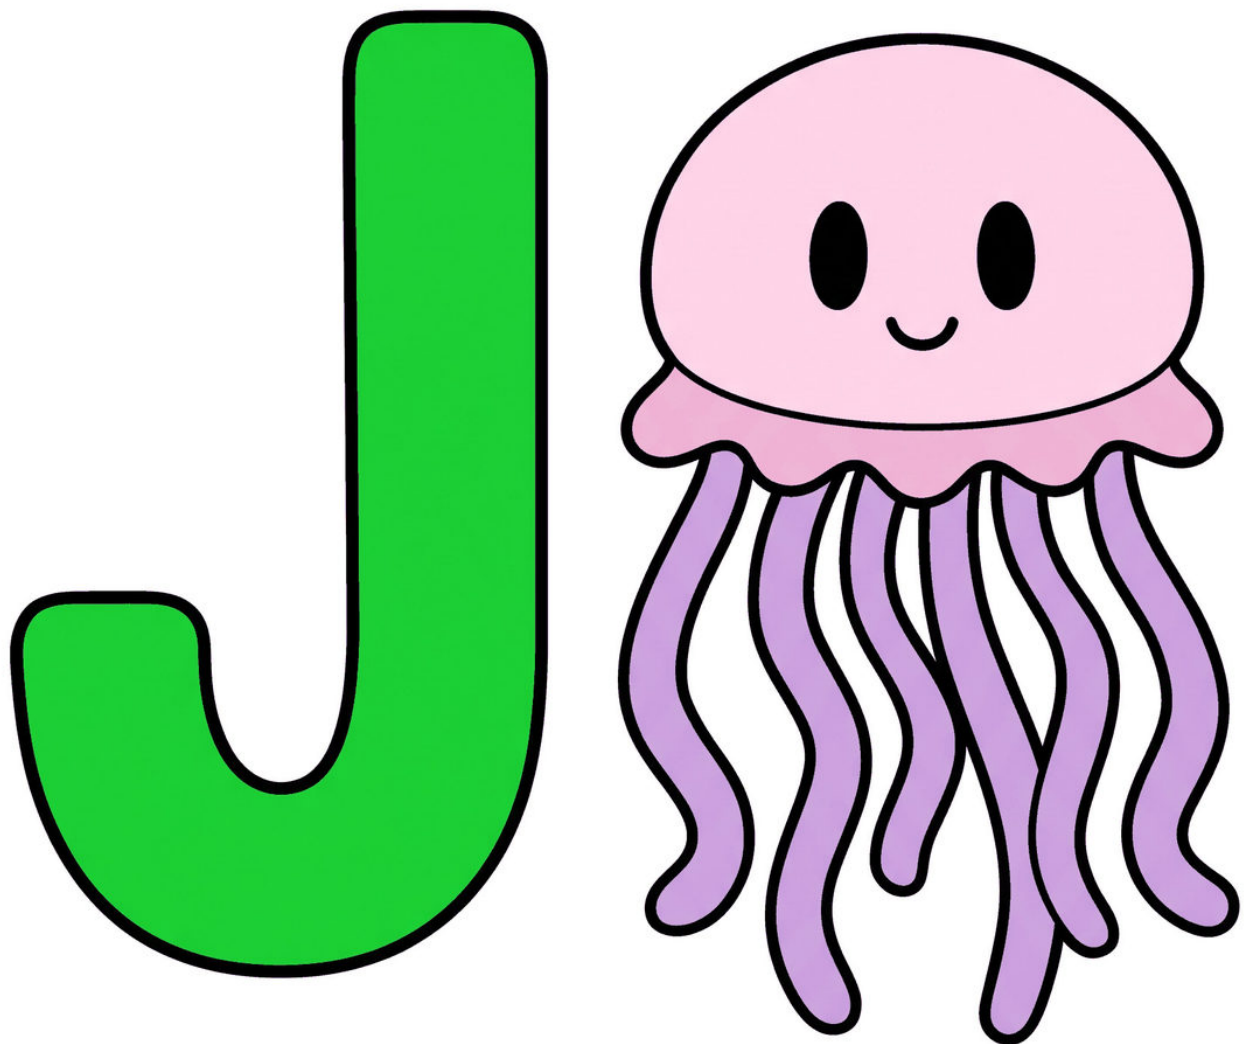

H IS FOR HORSE

Horses can stand and walk soon after they are born. They can even sleep standing up.

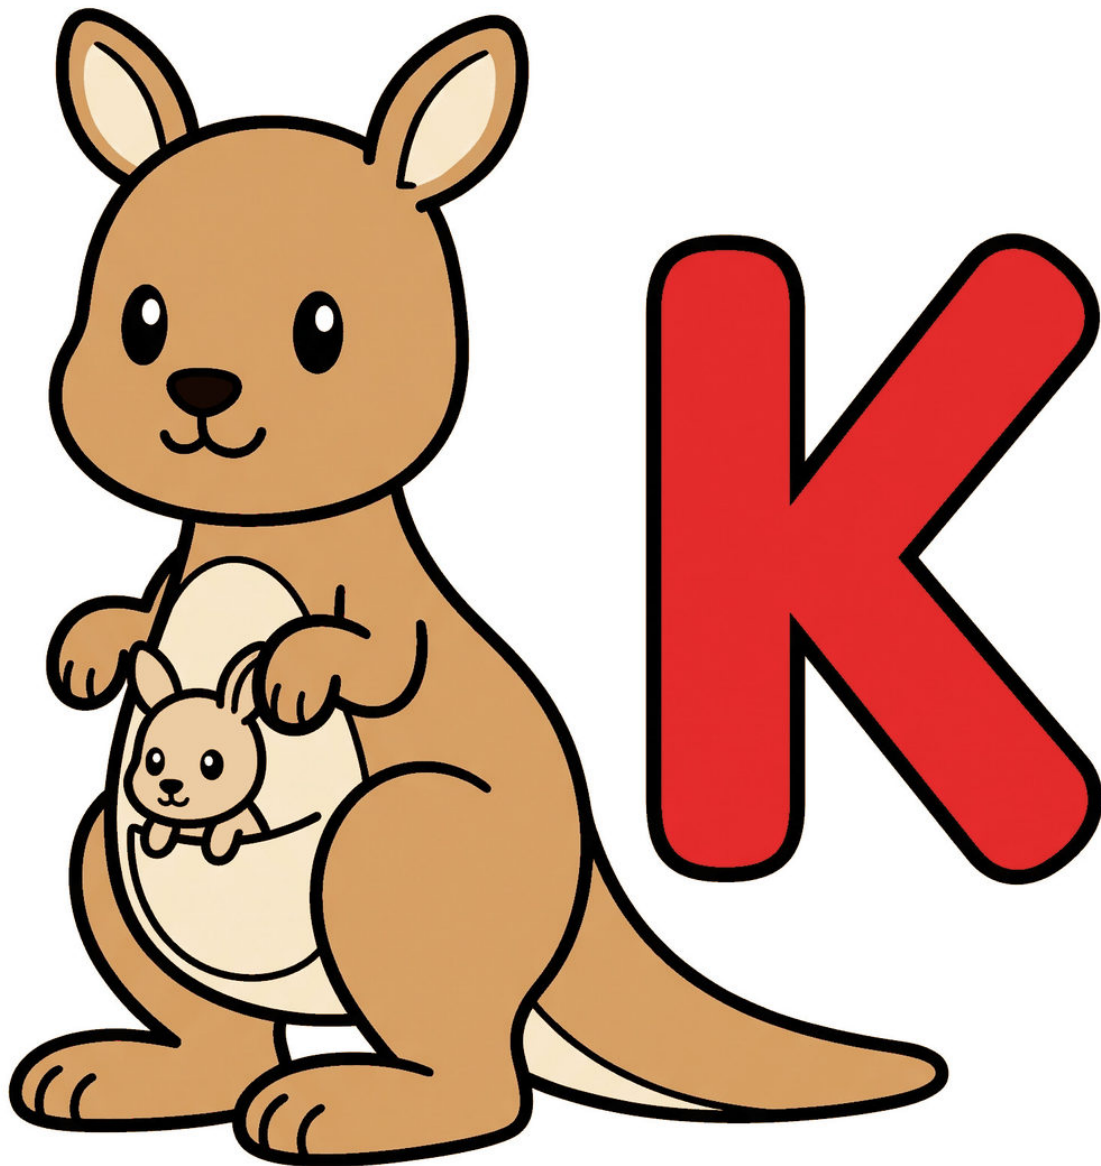

I IS FOR IGUANA

Iguanas are lizards that love to sit in the sun. They are very good climbers.

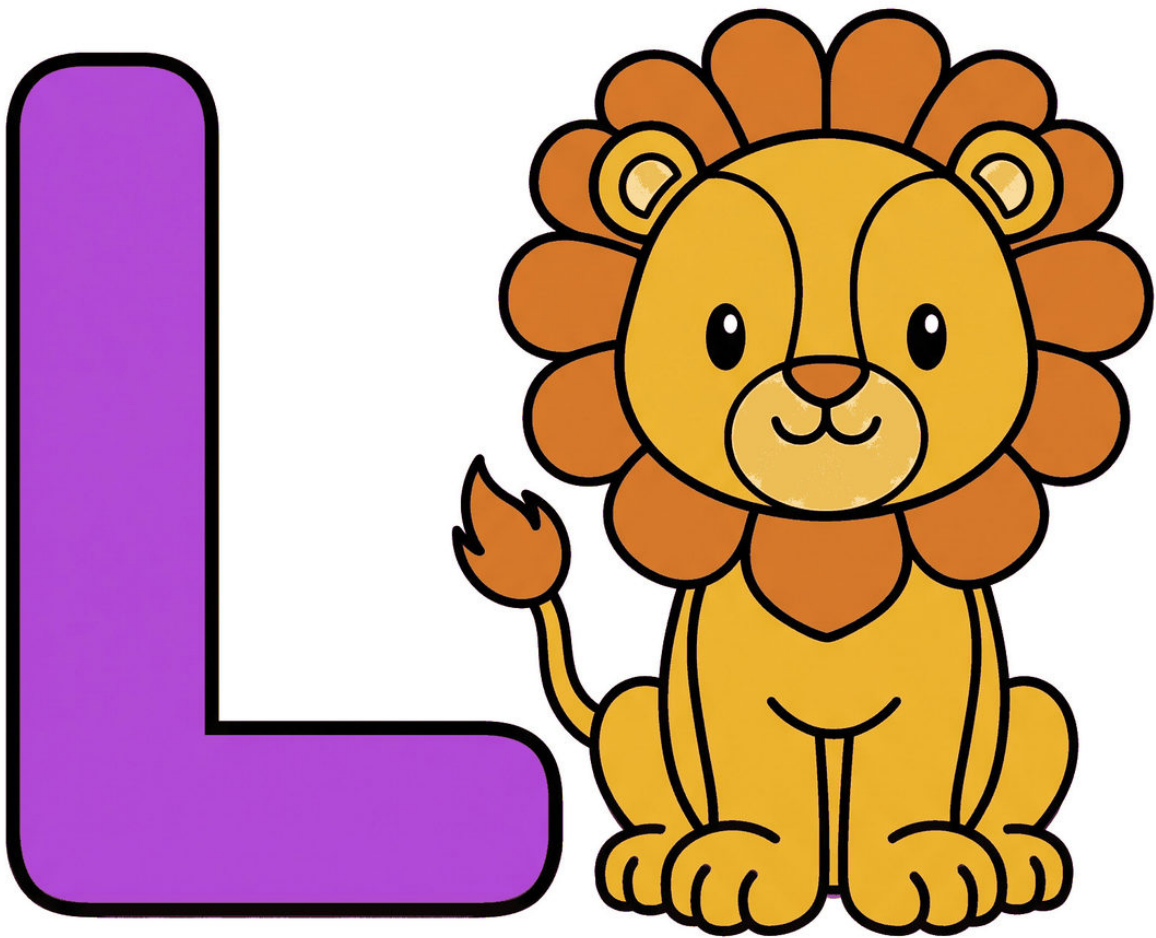

J IS FOR JELLYFISH

Jellyfish float gently through the sea. They have no bones, no heart and no brain.

K IS FOR KANGAROO

Kangaroos hop on their strong back legs. A baby kangaroo rides in its mother's pouch.

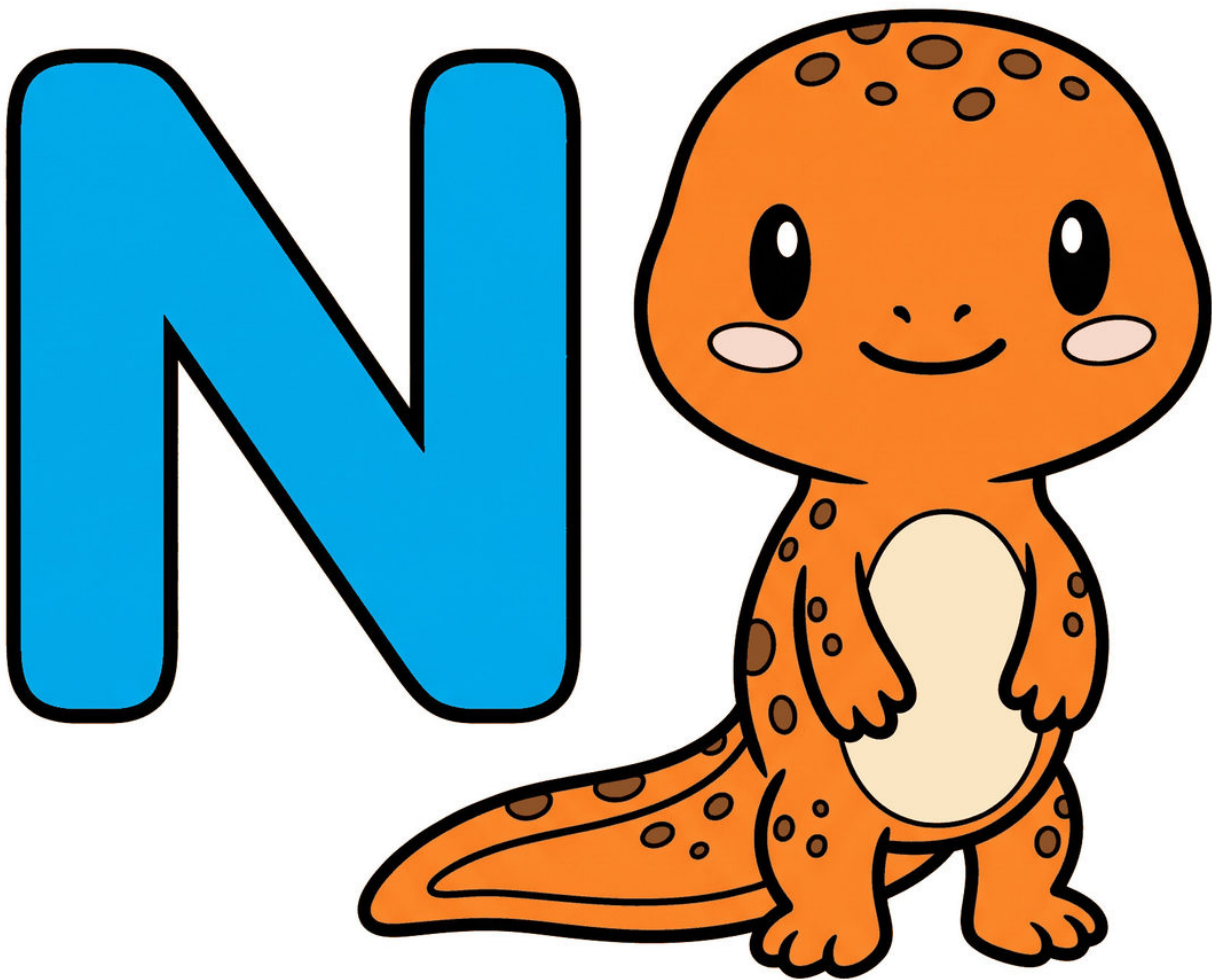

L IS FOR LION

Lions live in family groups called prides. A lion's roar can be heard far away.

M IS FOR MONKEY

Monkeys are clever climbers. They use their hands, feet and tails to hold on to branches.

N IS FOR NEWT

Newts can live in water and on land. They can grow a new tail if they lose one.

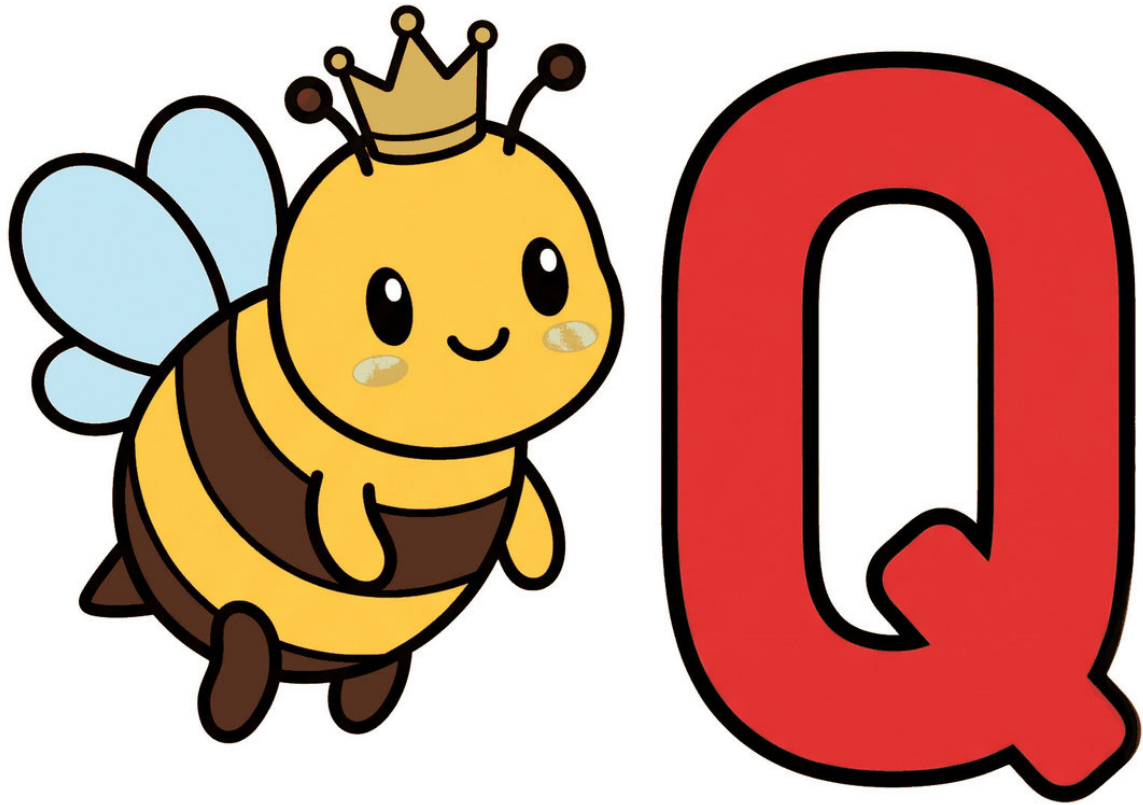

O IS FOR OWL

Owls are awake at night. They can turn their heads almost all the way around.

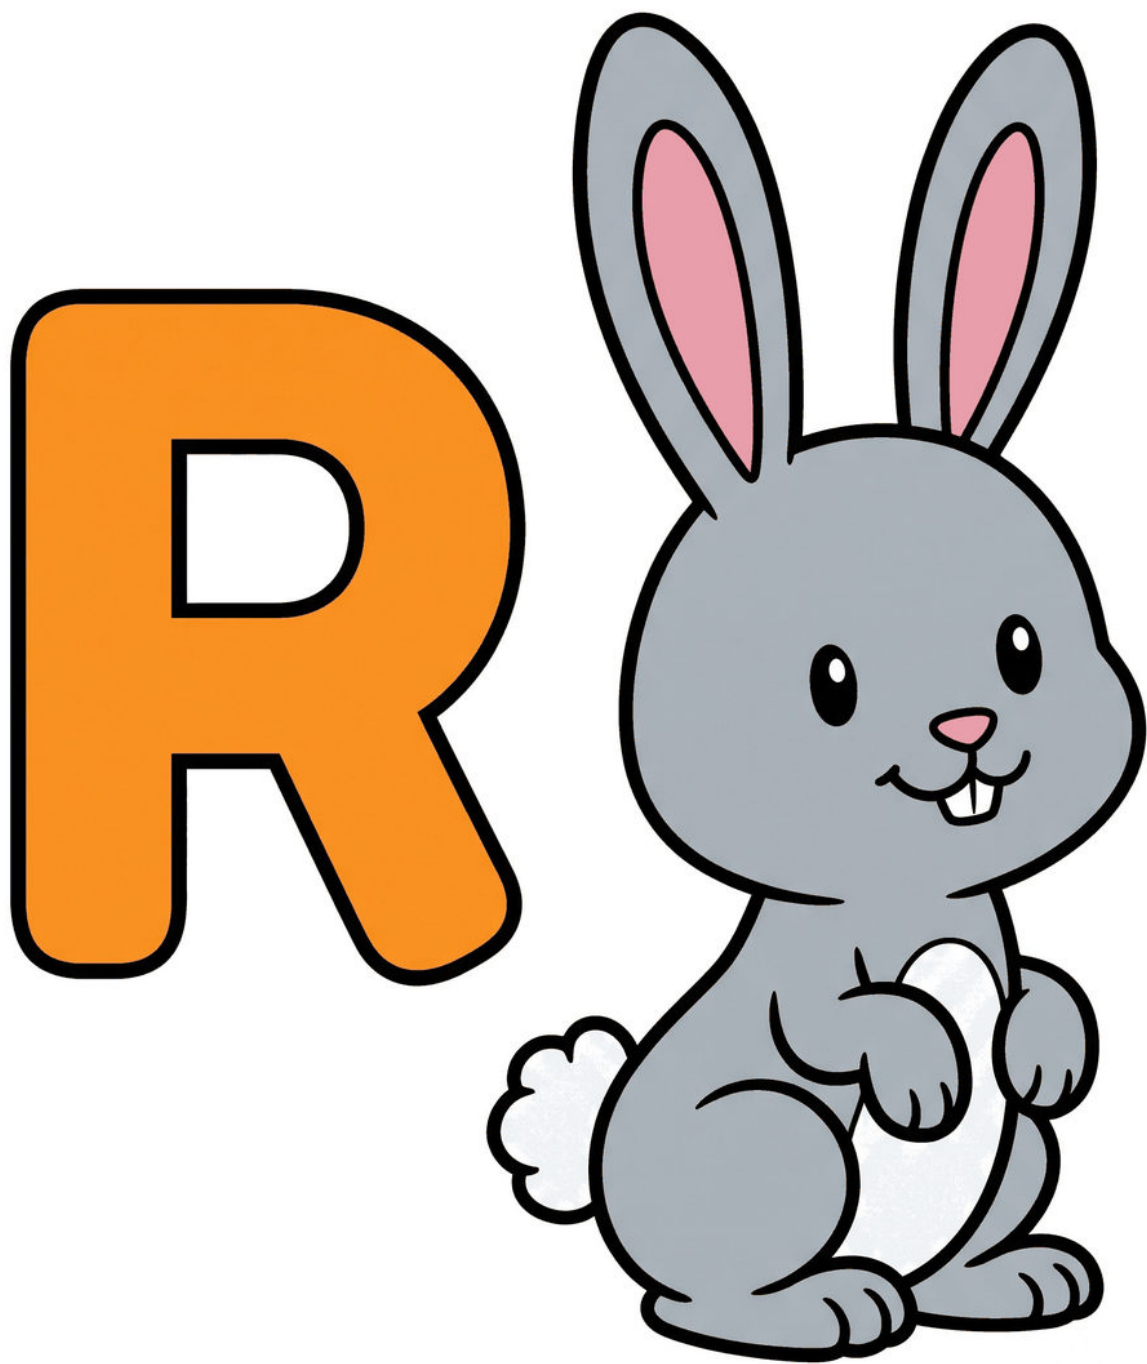

P IS FOR PANDA

Pandas eat bamboo nearly all day long. They live in the mountains of China.

Q IS FOR queen Bee

Every beehive has one queen bee. All the other bees help her look after the hive.

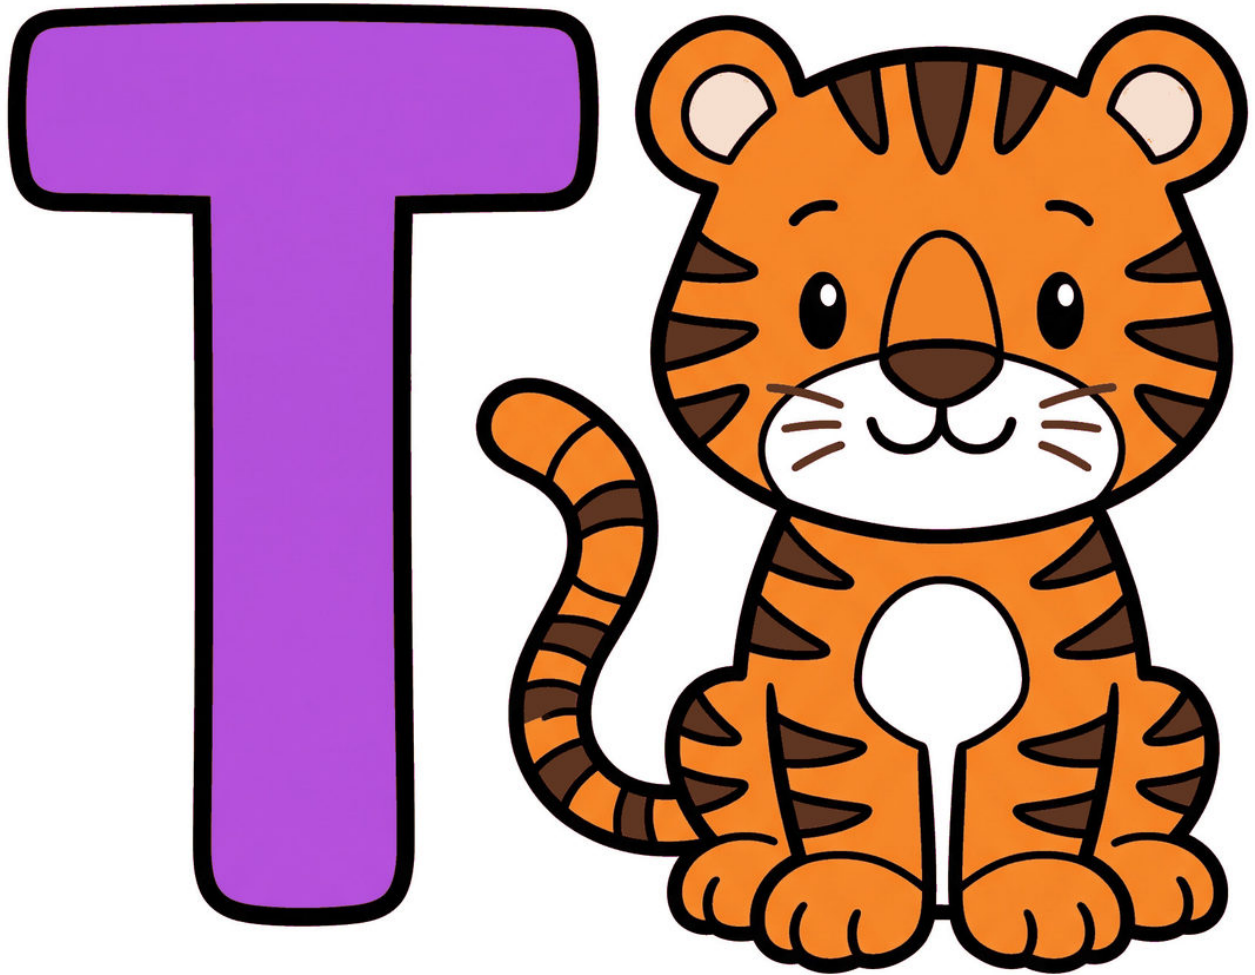

R IS FOR RABBIT

Rabbits have long ears that hear the tiniest sounds. They live in burrows under the ground.

S IS FOR SNAKE

Snakes have no legs, so they slide along the ground. They taste the air with their tongues.

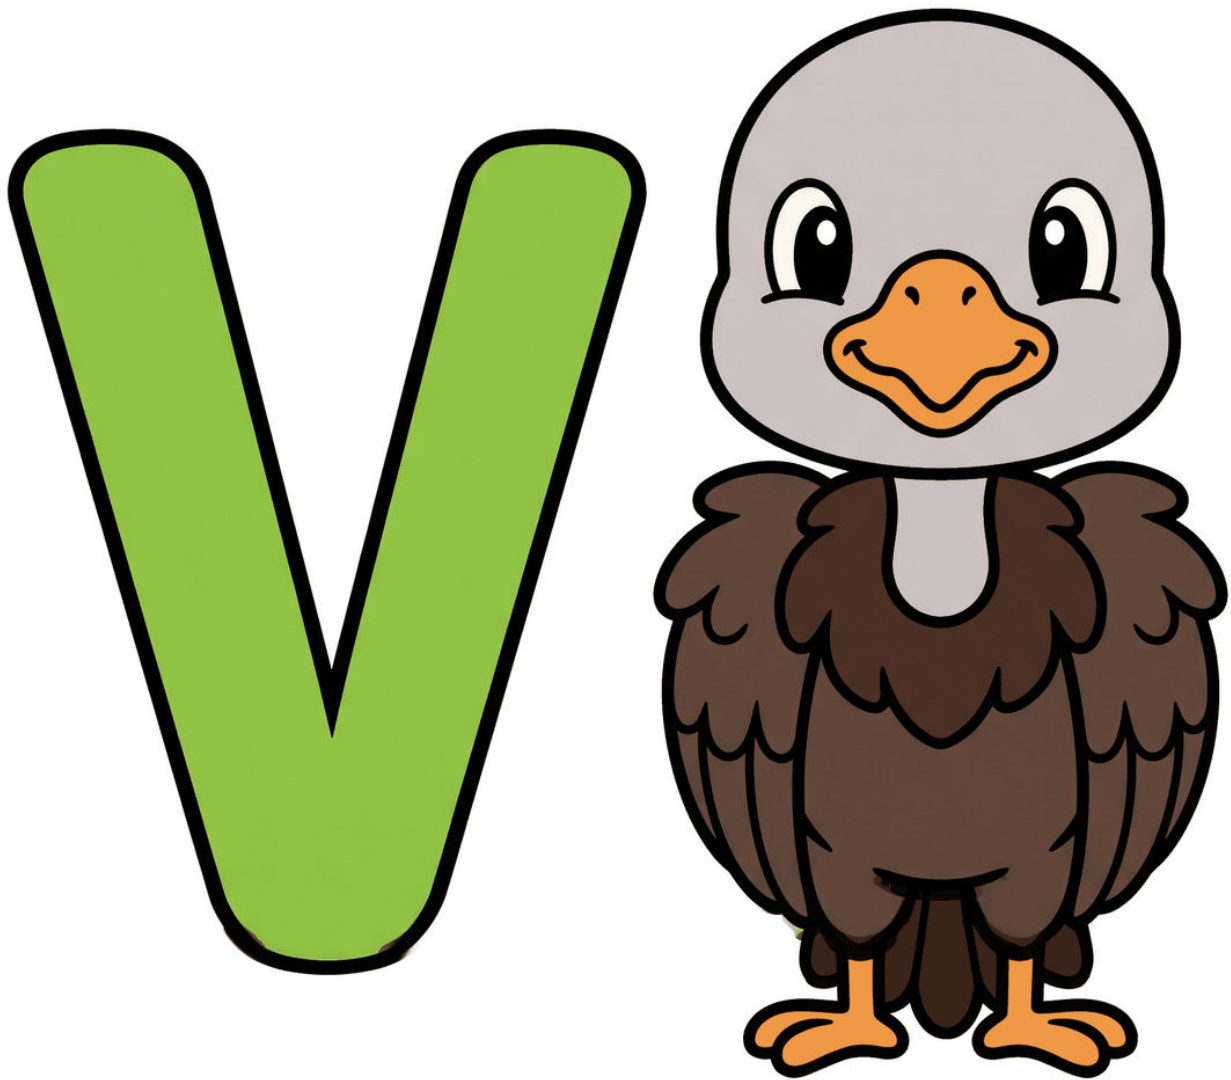

T IS FOR TIGER

Every tiger has its own pattern of stripes. No two tigers look exactly the same.

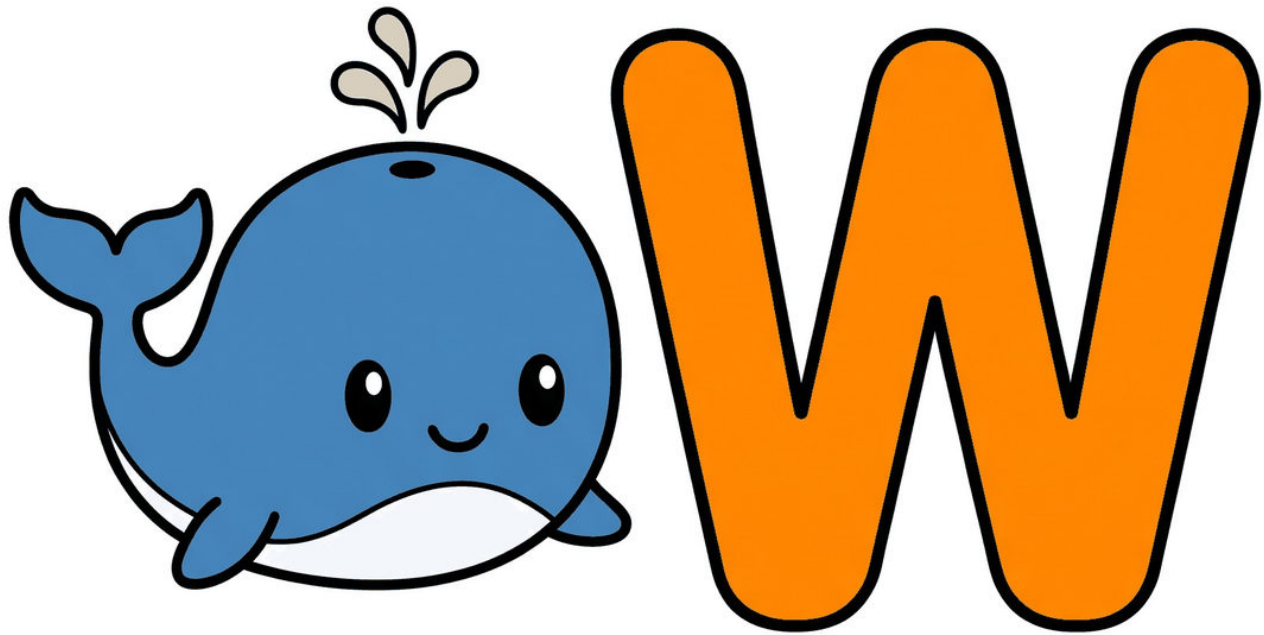

U IS FOR UMBRELLA BIRD

The umbrella bird has a crest on its head shaped like an umbrella. It lives in rainforests.

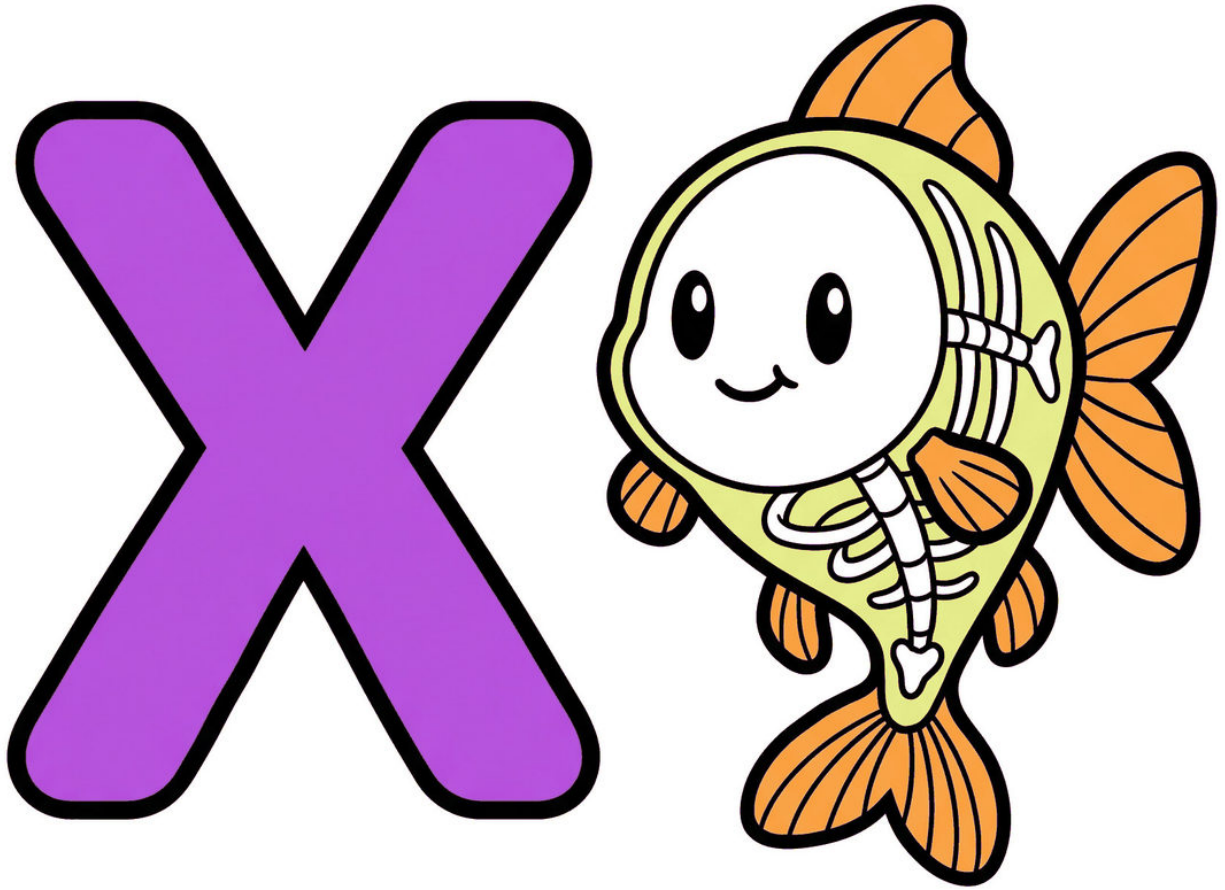

V IS FOR VULTURE

Vultures glide high in the sky without flapping. They have very sharp eyes.

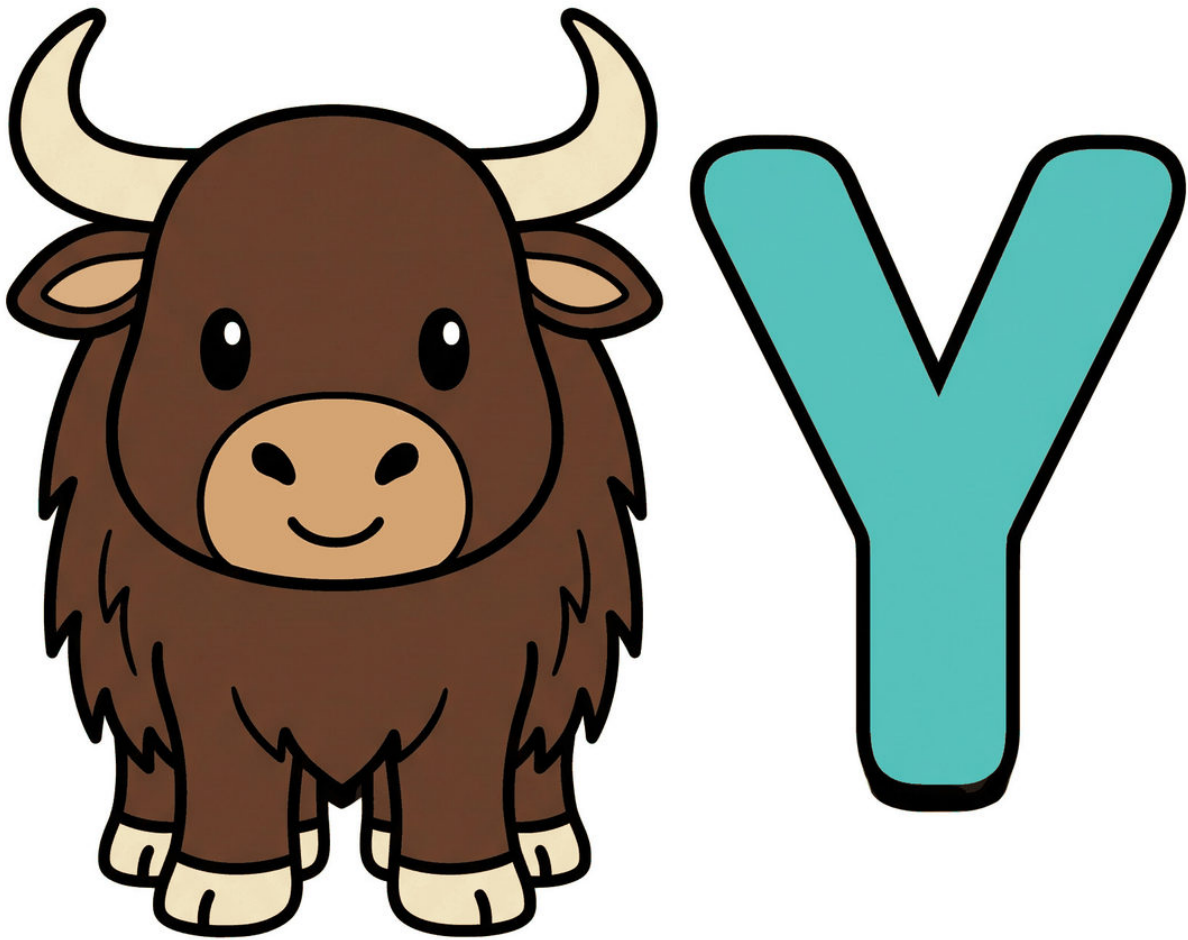

W IS FOR WHALE

Whales are the biggest animals in the sea. They come up to the top to breathe air.

X IS FOR X-RAY FISH

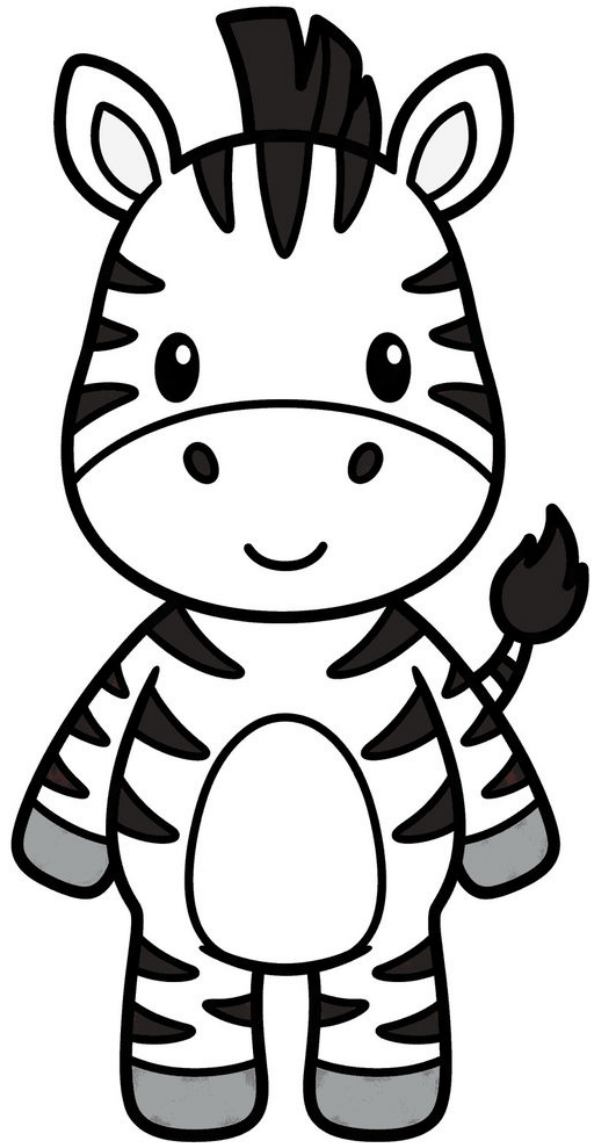

The x-ray fish has a see-through body. You can spot its tiny bones inside.

Y IS FOR YAK

**Yaks have thick, shaggy coats. They live high in cold mountains where it
snows.**

Z

Z IS FOR ZEBRA

Zebras live in herds on grassy plains. Their stripes help them hide together in the grass.
